COMFORT SLEEPER

mattress options

Three premium options that are redefining the sleeper sofa experience.

HiPERFORM FOAM

An innovative, ultralight foam layered with carbon fiber infusions reinforces the foam's composition for unrivaled strength and support. Featuring a Crypton® PFAS-free premium fabric cover that is both breathable and stain-resistant, the HiPerform Foam mattress is engineered to last while providing unparalleled comfort.

1 Performance Quilted Cover

Made with Crypton®, a PFAS-free premium fabric fused with antimicrobial technology to shield against any stains or spills. Engineered to last, it provides lifelong moisture and odor protection.

2 HiPerform Foam

10X STRONGER THAN STEEL

Carbon fiber is known for its unrivaled strength. When joined to foam, it retains the gentle pliability while infusing the high-performance support and flexibility.

CELL SURFACE INFUSION

Each cell in the foam is layered with an infusion of carbon fiber that strengthens structural integrity from its very core.

PERFORMS LIKE HIGH-DENSITY

The ultralight foam performs just like a denser style without the burden of additional bulk while offering uncompromising support in deep compression zones.

3 Base Platform

COOLING GEL

A revolutionary gel mattress featuring three layers of cooling action and copper-infused beads that draw heat away from the body for a cooler sleeping experience. Featuring a premium, breathable fabric cover, the Cooling Gel mattress is engineered to last while providing temperature-controlled comfort.

1 Premium Soft Quilted Cover

Infused with cooling technology with cooling yarn to provide a refreshing cool-to-the-touch embrace.

2 Cooling Gel

TRIPLE ACTION COOLING

Each of the layers from the cool-touch ticking to the copper-infused gel top, and the temperature-conductive base, harmoniously combine to create a remarkable cooling sensation.

COPPER BEAD TECHNOLOGY

Both gel layers are enhanced with heat-reactive copper beads that draw warmth away from the body and guide it into its conductive matrix, to ensure a cooler experience.

COOLING COMFORT RELIEF

Embrace the benefits of space-cradling comfort that relieves the body of tension and leaves you refreshed and rejuvenated.

3

4 Base Platform

TEMPUR-PEDIC®

A plush memory foam that conforms perfectly to your body, allowing your shoulders and hips to sink into the mattress, virtually eliminating painful pressure points. Featuring a premium, breathable fabric cover, the Tempur-Pedic® mattress is engineered to last while providing personalized comfort.

1 Soft Quilted Cover

Crafted with a breathability-enhancing fabric, the fabric effortlessly combines unrivaled softness and exceptional flexibility.

2 Tempur-Pedic®

ELEVATED COMFORT

Meticulously crafted with unparalleled care, the Tempur-Pedic® mattress embraces your uniqueness, weaving personalized harmony and unwavering support.

DYNAMIC SUPPORT

Experience the supportive embrace of a TEMPUR® material layer that conforms to your body, providing pressure relief. A premium foam base layer minimizes pressure points, reducing restlessness.

3

4 Base Platform

MODERN LIFE WELL FURNISHED

Built on a rich culture of innovative craftsmanship, American Leather brings you impeccably-constructed, customizable modern pieces made in America. From the revolutionary Comfort Air™ to the world-renowned Comfort Sleeper®, American Leather is built for the people by the people.
